MEMORANDUM FOR THE RECORD

25X1A

Subject: Travel Regulations - [REDACTED]

25X1A

25X1A9a

1. At the request of [REDACTED], Chief, Administrative Staff, attended a meeting conducted by [REDACTED] Transportation Division, as the representative of the Office of Logistics, which was held for the purpose of resolving all comments and obtaining concurrence on the issuance of the subject proposed regulation. Each component of the Agency was represented by an official who had been delegated authority to concur for his respective component, except the DD/P. Mr. [REDACTED] represented DD/P and was not authorized to concur for the DD/P.

25X1A9a

2. The proposed regulation and the attached charts were reviewed, paragraph by paragraph, by the entire group. Numerous small points were recommended for change and agreement in principle was reached by all. The undersigned suggested only one major change which was in paragraph 4. Paragraph 4 as written states that these regulations (the [REDACTED] series) govern official travel of Agency staff personnel "except where deviation therefrom is necessary for operational security or cover requirements as determined and certified to by the Deputy Directors (Plans), (Intelligence), (Support), as applicable." The need for this statement was questioned on the grounds that General Counsel had several times ruled that the various laws under which the Agency may authorize travel for its staff personnel may not be applied in part on a particular case. In view of this and since the purpose of these regulations is to establish Agency-wide policy, it was proposed that this phrase be deleted. Mr. [REDACTED], representative of the Office of General Counsel, concurred. Mr. [REDACTED] agreed to ask that this be reviewed by the DD/P, and that, if DD/P still felt that the phrase was needed, he would request that DD/P furnish this Office and General Counsel with the justification for retention of the phrase.

25X1A9a

3. Upon receipt of information which certain representatives at the meeting agreed to furnish [REDACTED] will prepare the final draft for submission to the Regulations Control Staff, incorporating all comments discussed at the meeting. He will furnish copies to DD/P through SSA/DD/S and to Comptroller upon submission to RCS.
